

Passionate developer with two years of programming experience, specializing in backend development. My focus is on creating efficient and scalable solutions using my expert skills in Python and Java. Throughout this period, I have demonstrated a strong commitment to continuous improvement, staying updated with the latest technological trends. My enthusiasm for programming is reflected in my constant pursuit of challenges that allow me to expand my skills and contribute to the success of innovative projects.

Juan Bautista Espino

BACKEND SOFTWARE DEVELOPER

Experience

2023-present **JAVA**

- Passionate about Java, I'm currently studying it at university. The versatility and power of Java captivate me, driving my commitment to mastering the language. Excited about its potential, I aim to contribute to innovative projects in the dynamic field of software development

2022-present **Python**

- Having successfully studied Python at university, I am deeply passionate about the language's simplicity and versatility. My academic journey has equipped me with a solid understanding of Python's dynamic features. Eager to apply this knowledge,

2020-present **HTML-CSS**

- Started my programming journey during quarantine with HTML and CSS, creating websites from scratch. This hands-on experience sparked my passion for coding, motivating me to explore advanced technologies.

Education

2022-present **Computer Engineering**
Universidad Argentina de la Empresa

2014-2020 **High School**
Colegio Sagrado Corazon

Skills

- Python
